DISC GOLF FOR ALL

— EQUAL BY DEFINITION —

Founder's Letter

People First. Always.
One Throw Can Change Everything.

DGFA Founder's Letter Disc Golf For All, Inc.

Welcome,

Thank you for taking the time to learn about Disc Golf For All.

My name is Dean Pruiett, and I have the privilege of serving as the Founder and Chairman of Disc Golf For All, Inc.

Disc Golf For All was born from a simple conviction: a person's ability never determines their worth.

Throughout my life, I have witnessed the incredible impact that encouragement, genuine relationships, and shared experiences can have on a person's journey. Sometimes all it takes is one opportunity, one conversation, or one act of kindness to change the direction of someone's life.

For me, that opportunity came through disc golf.

What began as a game quickly became much more. It became a place where people from different backgrounds, experiences, and abilities could gather together as equals. It became a community built on encouragement, respect, and friendship. It reminded me that the greatest victories in life are rarely measured by scorecards—they are measured by the lives we touch.

After concluding a twenty-year career for a financial institution, I began asking a question that would eventually become the foundation of this organization:

"What if disc golf could become a bridge to something greater?"

The answer to my question became Disc Golf For All.

Our mission extends far beyond introducing people to a sport. We exist to strengthen individuals and communities by removing barriers to participation and creating welcoming pathways into disc golf for those who might never have otherwise discovered it.

Beginning on the Mississippi Gulf Coast, with designs to grow, we are committed to serving active-duty military members, veterans, military families, local students, colleges and universities, people with disabilities, and people preparing to reintegrate.

We believe every person deserves the opportunity to experience belonging, encouragement, and hope.

Disc golf is the medium, not the message. The message is people.

Everything we do is guided by a simple belief that one opportunity can change the course of a life. Whether through a First Flight pack, a community event, a volunteer, or simply someone taking the time to walk alongside another person, we hope every interaction reminds people that they are seen, valued, and welcomed.

We will not measure our success by the number of discs we distribute.

We will measure it by how many people throw their first disc—or their first disc again.

None of this happens alone. It requires volunteers willing to serve.

Community partners willing to open doors.

Schools, military installations, civic organizations, and businesses willing to invest in people.

Partnerships with disc manufacturers willing to invest in people.

And donors who believe that changing one life is always worthwhile.

To every volunteer, supporter, partner, and future participant, thank you.

Thank you for believing that people matter.

Thank you for believing that communities grow stronger when everyone has the opportunity to belong.

Together, we can introduce people not only to the joy of disc golf, but to the confidence, friendships, purpose, and hope that can grow from a single opportunity.

Because sometimes...One Throw Can Change Everything.

With gratitude,

Dean Pruiett
